FACTORY FIRST!

Above everything else today—the job is to win the war.

WHAT GREYHOUND IS DOING: Greyhound is furnishing transportation for the armed forces and for war workers to and from plants. Greyhound is continuing to serve civilian travelers, now more dependent on buses because of private car and tire restrictions. This tremendous task constantly grows greater and is being done with the limited number of buses available under present conditions.

WHAT YOU CAN DO: You can help by traveling during the middle of the week—thus providing more seats for military personnel and war workers who must travel on weekends. Greyhound will continue to furnish the best service that war conditions will permit. But we must all remember—before personal convenience and pleasure—it is Victory First.
